

Hands

Materials

Manufactured from aluminium, anodised for maximum corrosion resistance. Externally balanced. Nickel plated brass bosses. Custom designs available to order.

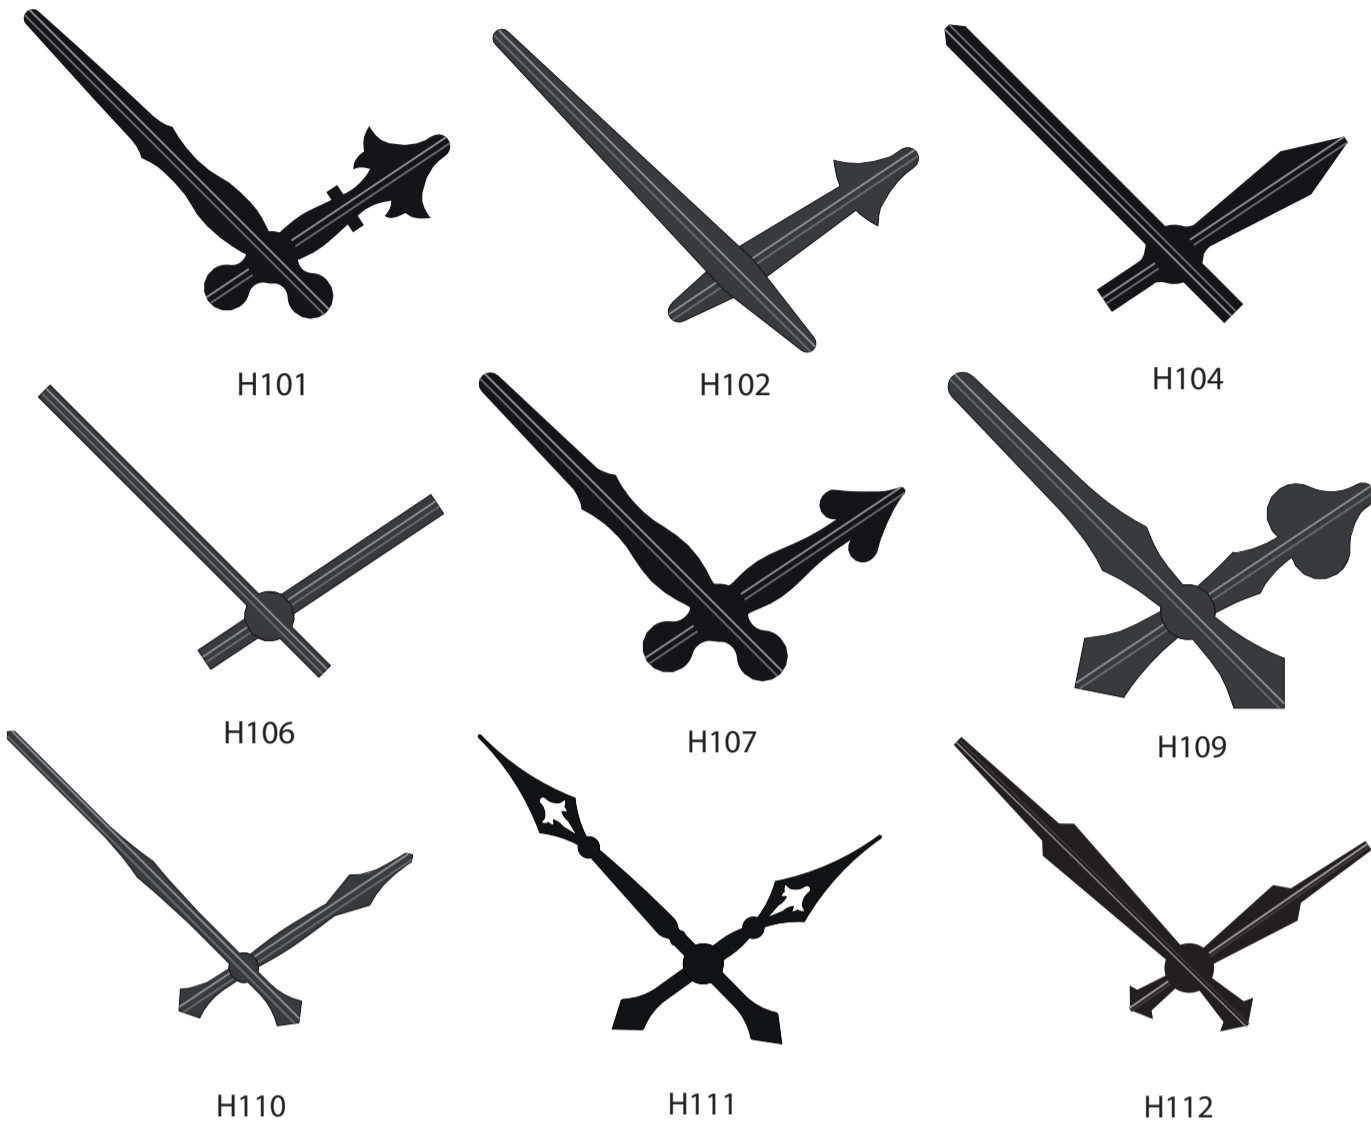

Rear view showing external counterbalance and hand bosses for fixing to driveshafts on movement

Finishes

Paint finish applied using a two pack acrylic system (as in motor industry). One coat primer, two top coats. Optional finish using best quality double thickness 23 1/2 carat gold leaf.

23 1/2 carat gold leaf finished minute hand

A selection of designs suitable for modern and traditional clock dials.

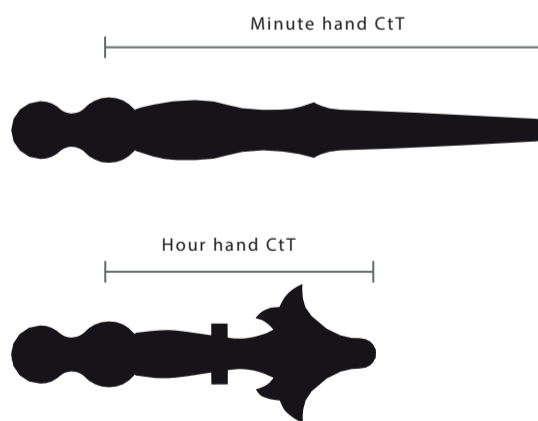

Dimensions

The standard sizes in the table are compatible with standard Smith of Derby clock dials. Other sizes can be manufactured to special order.

Full details of our movements, synchronous power failure backup systems, impulse/master clock systems, maintenance contracts and design service are available on request.

Please note that the design, price and specification of our products may vary without prior notice.
